

BCS3678<sup>ex</sup>-NI Bluetooth – connection options

Picture	Option
	<div>Option 1</div> <div>Connection via Universal Supply Module to a PC/Host* in safe area.</div>
	<div>Option 2</div> <div>Connection via Base station to a PC/Host* in safe area.</div>
	<div>Option 3</div> <div>Connection via Universal Supply Module to a HMI certified for use in Zone 2/22 or Division 2</div>
	<div>Option 4</div> <div>Connection via Smart USB Device Bluetooth to a HMI certified for use in Zone 2/22</div>
	<div>Option 5</div> <div>Connection via Bluetooth to another Bluetooth device in safe area or hazardous location in Zone 2/22 or Division 2</div>

About PC/Host\*:

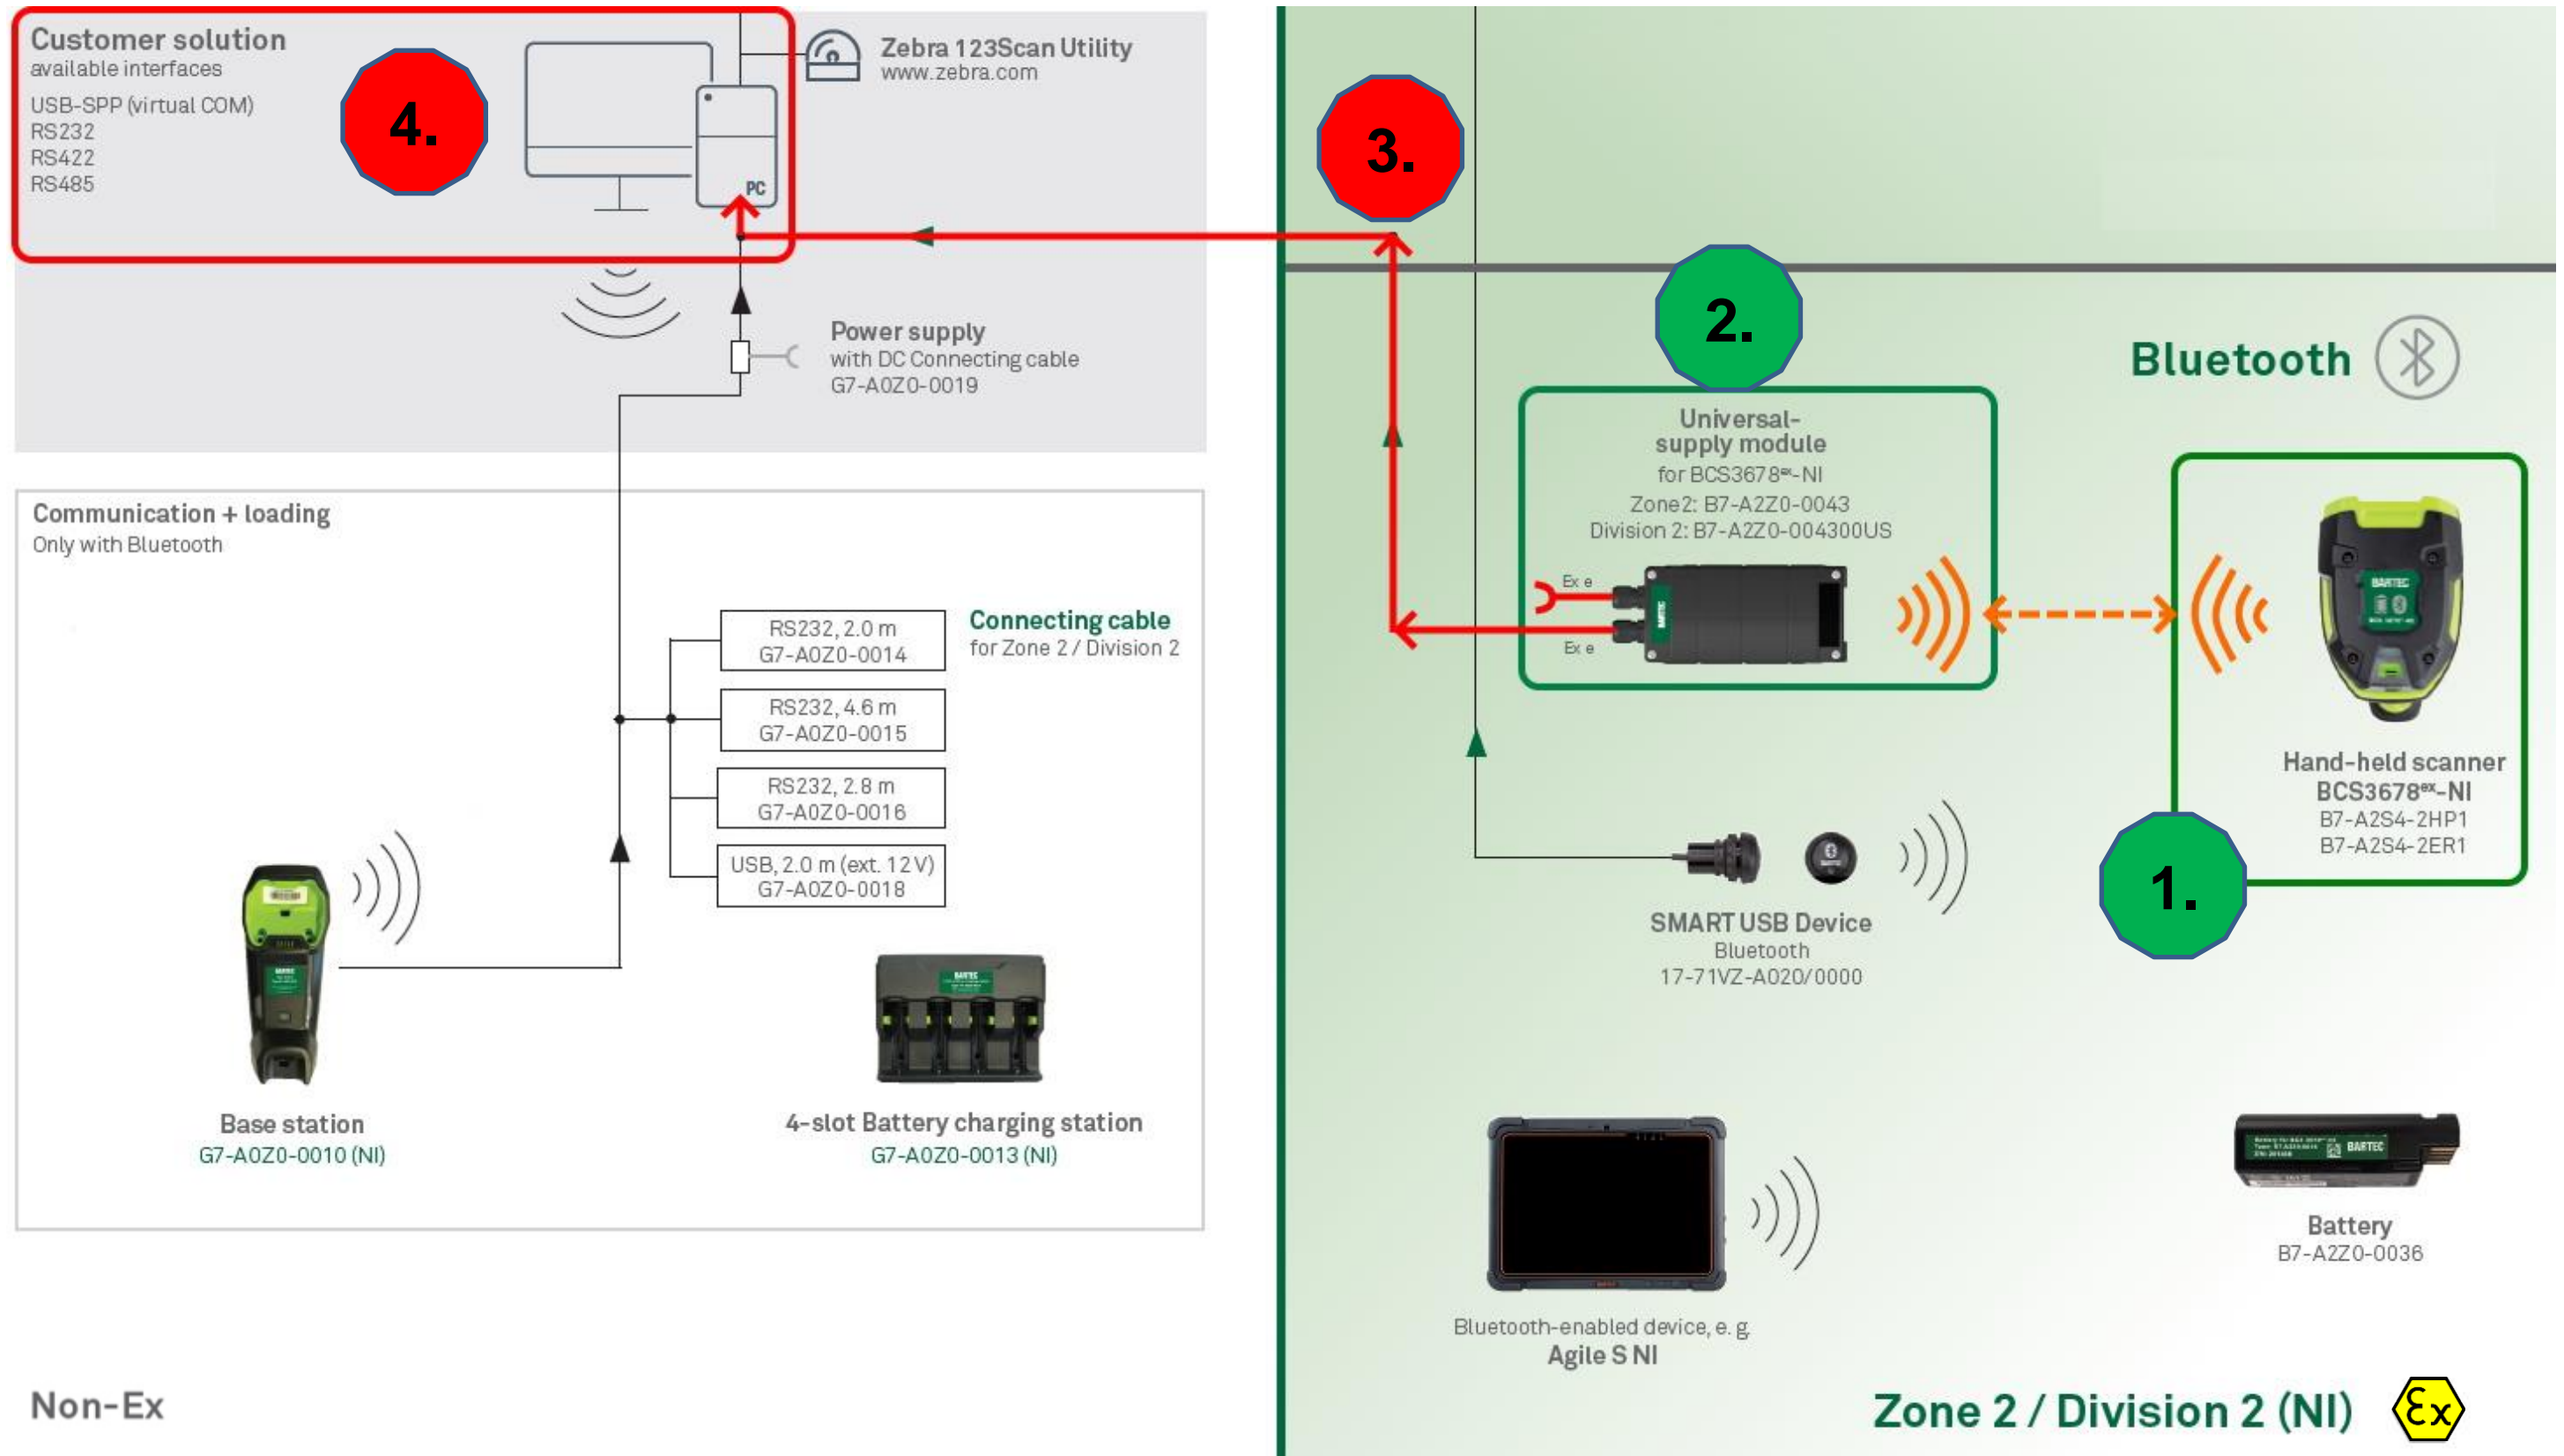

The designation PC/Host covers a wide range of possible devices to which the BCS3678<sup>ex</sup>-NI can be connected.

- PC with operating system e.g. Windows
- remote station
- PLC
- Scale system
- Any other system with a compatible interface and the ability to process serial data.

Important is that the system need to have a compatible interface that scanner can be connected.

# Product training – BCS3678<sup>ex</sup> NI series overview of possible connections

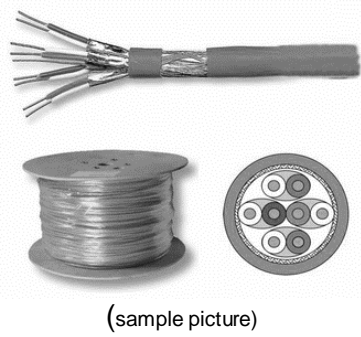

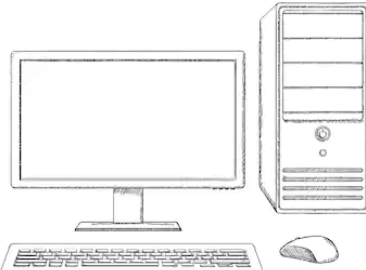

Option 1: BCS3678<sup>ex</sup>-NI connection via Universal Supply Module to a PC/Host\* in safe area.

Non-Ex

Green = Components from BARTEC for use in hazardous location Zone 2/22 or Division 2  
Red = Customer-specific components (not supplied by BARTEC)

## Required parts

No.	Picture	Part	Interfaces and their Ex-protection type

4a

**HMI Polaris II Series**

- ATEX Zone 2/22

P/N: on request by ESS-AUT business unit

Compatible Polaris series:

- Polaris Professional with RS422 or USB
- Polaris II Professional RS422 or USB
- Polaris Remote Digital with USB
- Polaris Zero Client with RS 422 or USB

**Data line: (Ex e to HMI)**

It is important that on the Polaris device is a free interface in RS422 or USB available. Then the “Universal Supply Module” interface can be connected to the Polaris device. The “Universal Supply Module” powers the scanner.

4b

**HMI – Ex version of 3<sup>rd</sup> party manufacturer**

- ATEX Zone 2/22

**It is possible but customer need to check that Ex-relevant values are compatible with HMI manufacturer.**

**Data line: (Ex e to HMI)**

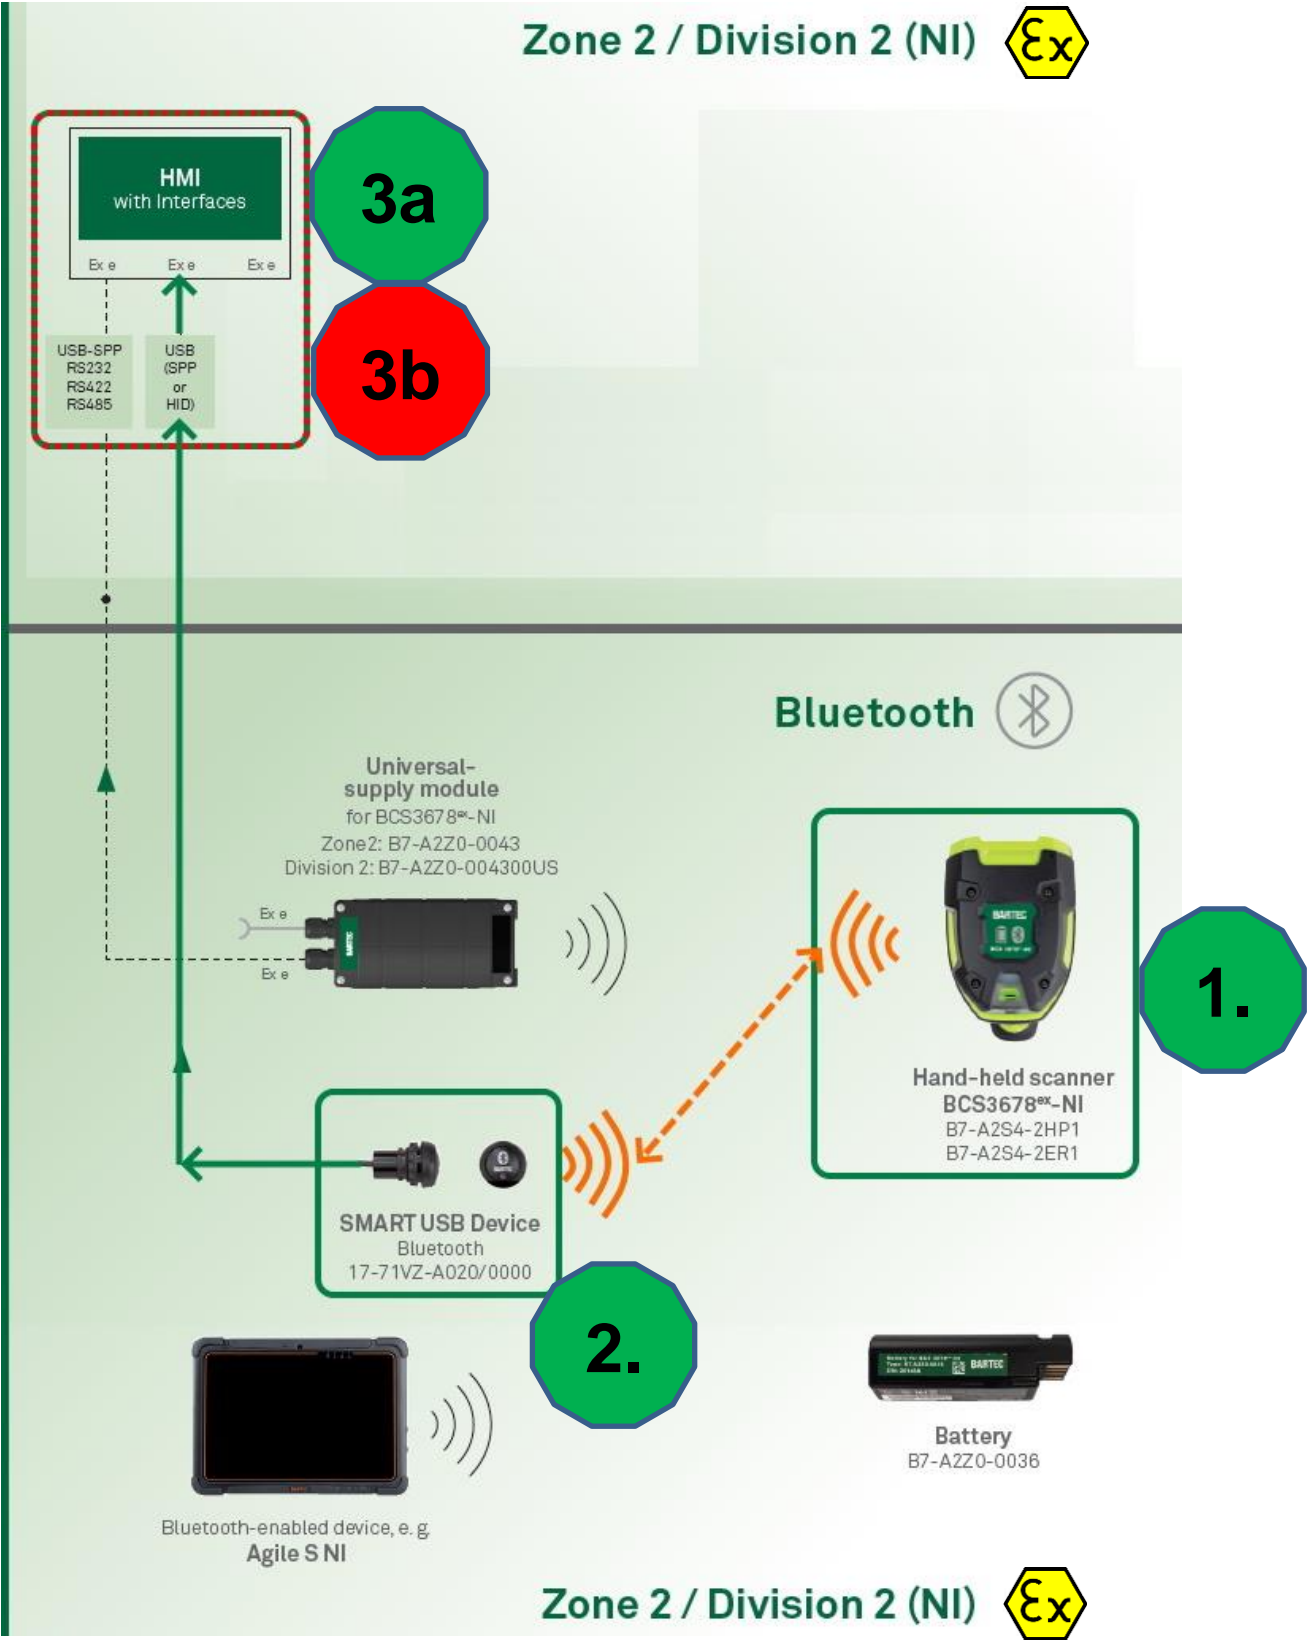

- RS232 (TxD from Scanner/USM to PC/host only)
- RS422
- RS485
- USB-SPP (Serial Port Profile)

Ex-relevant input parameter  
of BARTEC Universal Supply Module

Input	Ex-Model
Power supply	Ex e
Data interface	Ex e

Option 4: BCS3678<sup>ex</sup>-NI connection via Smart USB Device Bluetooth to a HMI certified for use in Zone 2/22

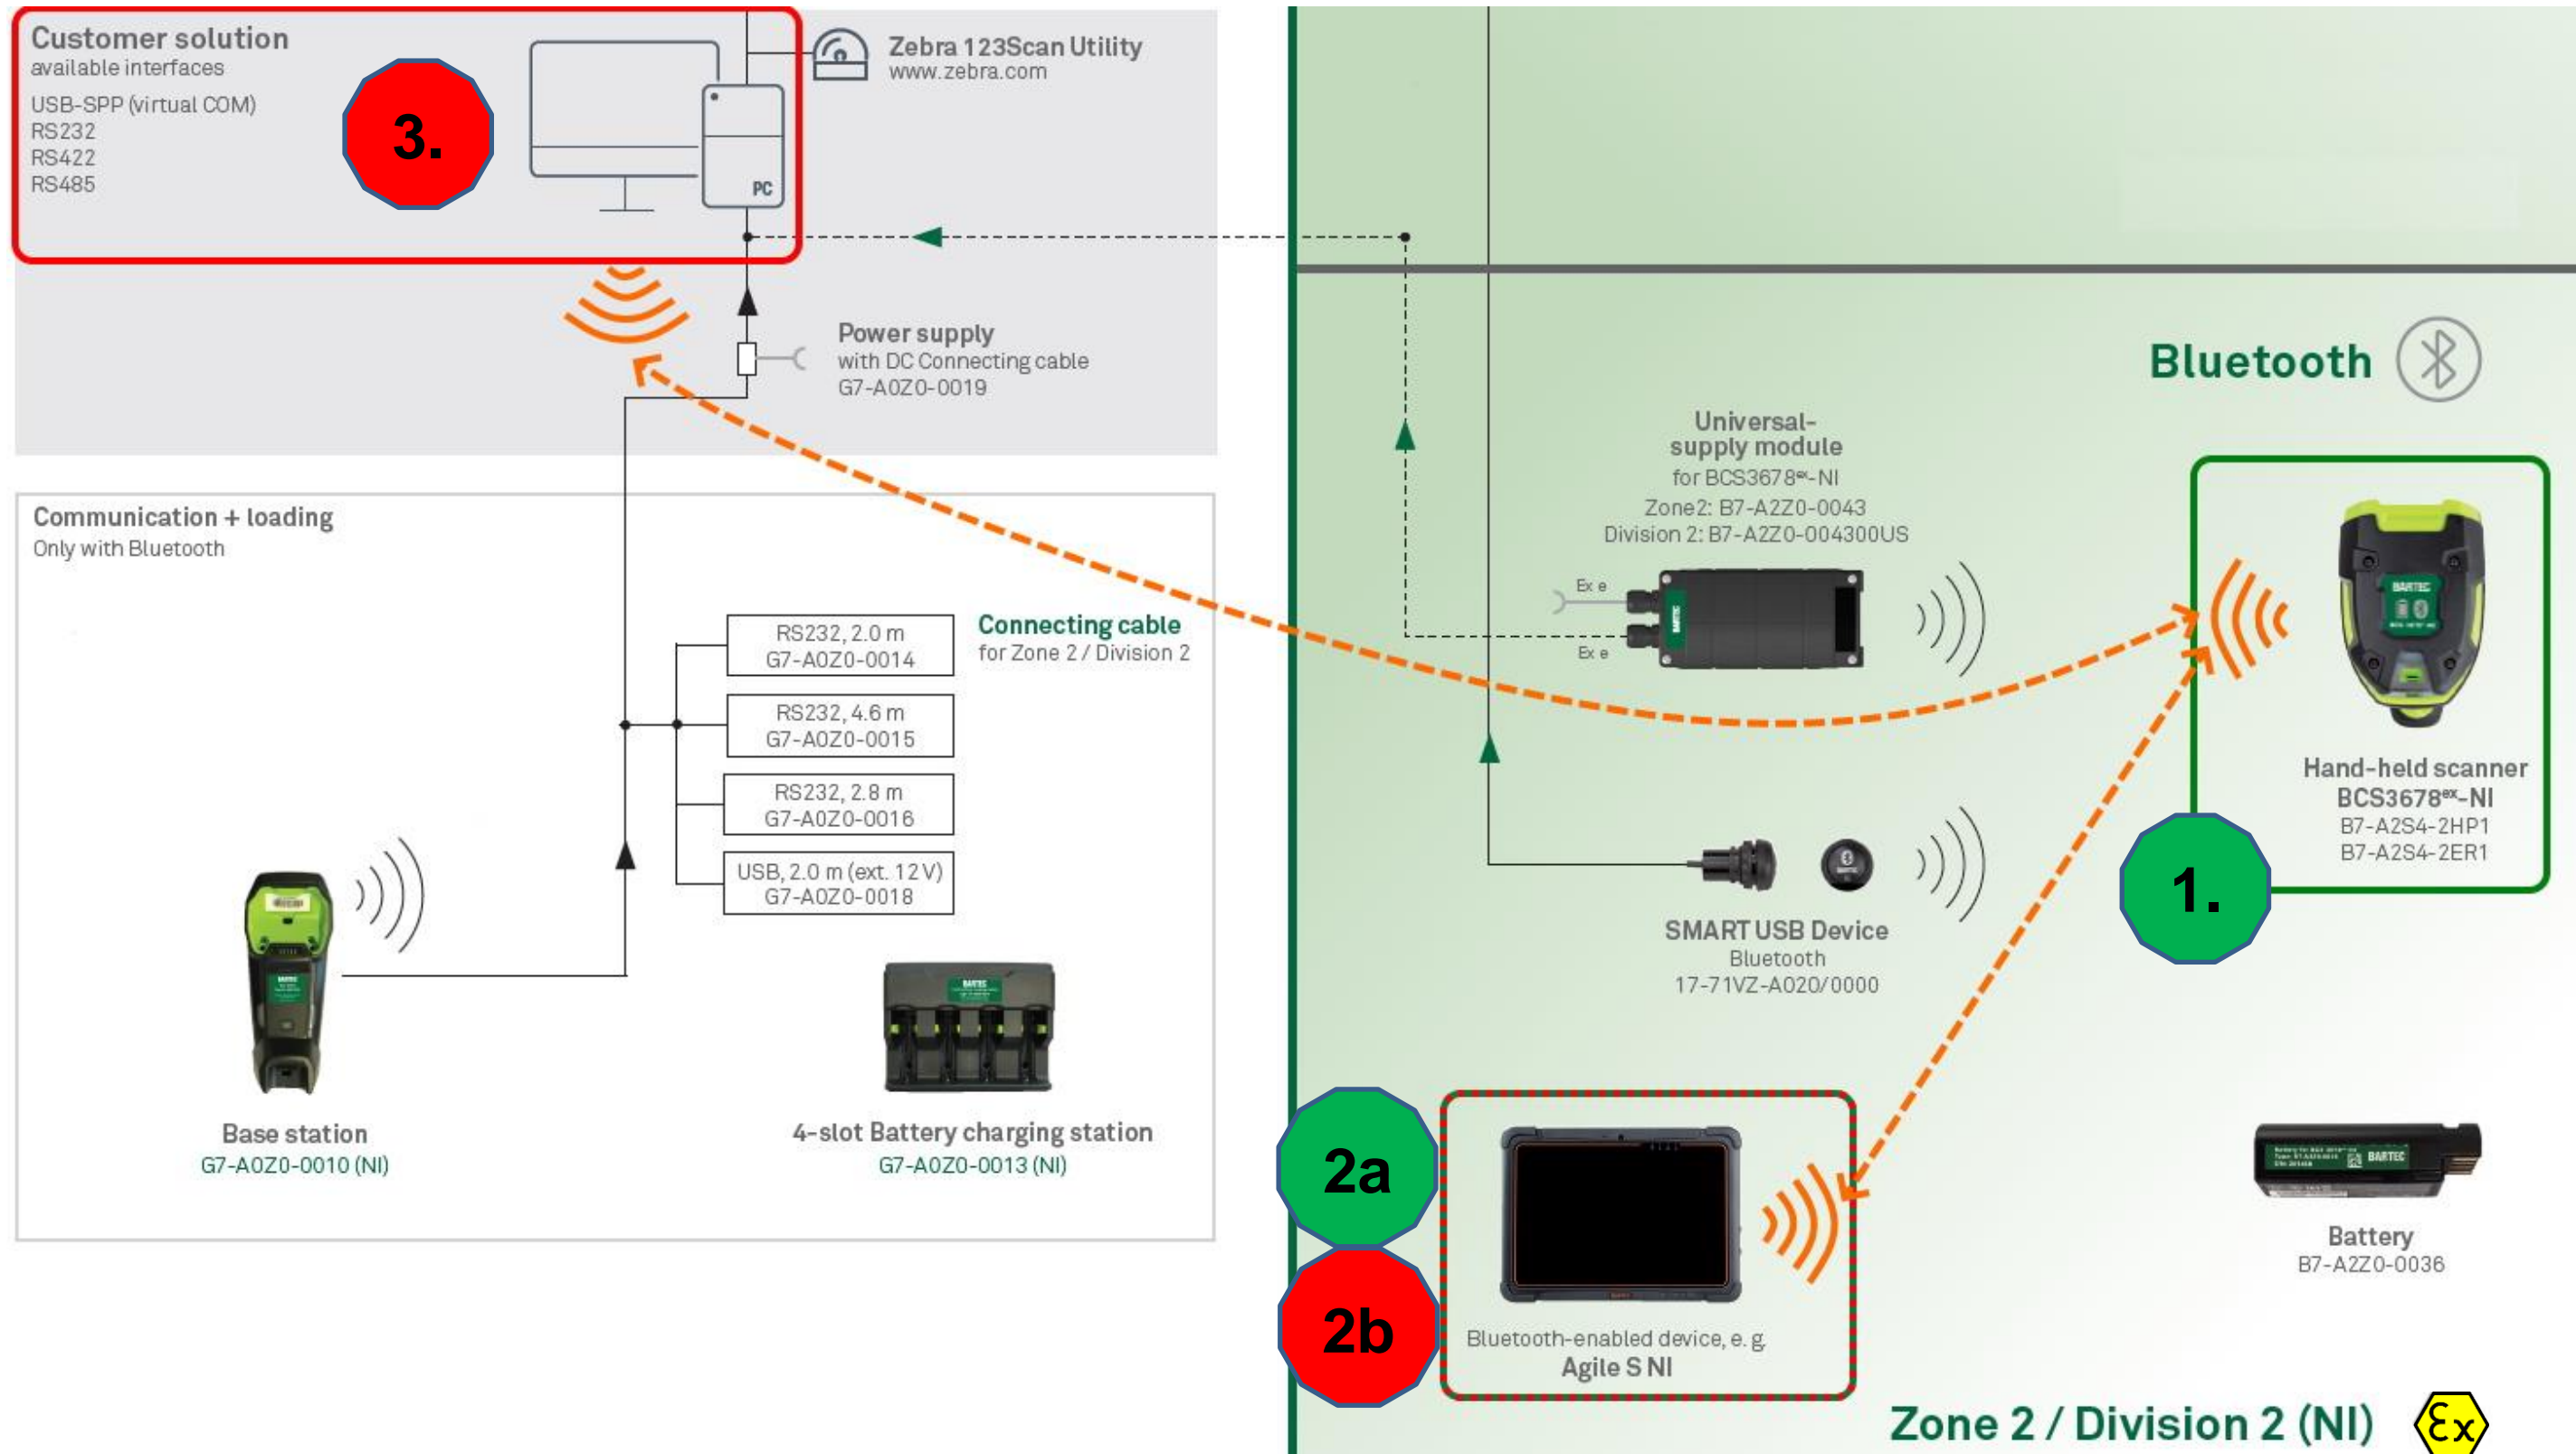

Green = Components from BARTEC for use in hazardous location Zone 2/22 or Division 2  
Red = Customer-specific components (not supplied by BARTEC)
